GENERAL ENQUIRY

contact@indeedproject.eu

INDEED project aims to strengthen first-line practitioners' and policy makers' knowledge, capabilities and skills for designing, planning, implementing and evaluating Preventing Violent Extremism (PVE), Countering Violent Extremism (CVE) and de-radicalisation initiatives, such as policies and strategies, long-term programmes, short-term actions and ad-hoc interventions, in an effective and proven manner

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under grant agreement No. 101021701.

MAIN RESULTS

1

UNIVERSAL EVIDENCE-BASED EVALUATION MODEL (EBEM)

EBEM for radicalisation prevention and mitigation that provides a systematic evidence-based approach to the evaluation of PVE/CVE and De-radicalisation initiatives

2

PRACTICAL EBEM-BASED EVALUATION TOOL

Tailored to the different first-line practitioners and policy makers; and their needs and requirements

3

USER-FRIENDLY REPOSITORIES

Factors and pathways into radicalisation, factors influencing resilience, evidence-based practices

4

TARGETED CURRICULA AND TRAININGS

In-person and e-learning courses and training materials for practitioners and policy makers

5

LESSONS LEARNT AND POLICY RECOMMENDATIONS

Concerning all processes related to the design, planning, implementation and evaluation of PVE/CVE and De-radicalisation initiatives

6

MULTILINGUAL TOOLKIT

Practical, interactive with integrated key results in one place to facilitate their use by practitioners and policy makers

TARGET GROUPS

1

First-line practitioners

2

Policy makers

3

Education and Research Communities
