The Network of SMART Hubs (Stakeholders Multisectoral Anti-Radicalisation Teams) brings together policy makers, practitioners and representatives of education and academia actively involved in designing, planning, implementation and evaluation of the PVE/CVE and De-radicalisation initiatives.

They help to identify, analyse, and compare scientifically tested solutions to develop a Universal Evidence-based Evaluation Model and INDEED Toolkit aimed at radicalisation prevention and mitigation.

SMART Hubs enable INDEED's stakeholders to proactively engage with INDEED, ensuring a multi-stakeholders, user-centred co-designed of the project outputs that will be of direct use by various groups.

This project has received funding from the European Union's Horizon 2020 Research and Innovation Programme under grant agreement No. 101021701.

TARGET GROUPS

INDEED geographical SMART Hubs are composed of key actors responsible for actions in the area of PVE / CVE and De-radicalisation, these are:

FIRST-LINE PRACTITIONERS:

LEAs and relevant networks of practitioners, prison and probation services, NGOs, CSOs, social and health services, youth organisations;

POLICY MAKERS:

European Commission, policy makers at local, regional, national and EU level, governmental organisation;

EDUCATION AND RESEARCH:

Universities, EU projects, academic institutions and groups, research organisations, educational institutions, training institutions, staff colleges;

OTHER:

All other relevant stakeholders that fall outside the three above groups.

INVOLVEMENT ROADMAP

WORKSHOPS	VALIDATION	POLICY SEMINARS	TESTING
INTERVIEWS	EVENTS	DISSEMINATION	FOCUS GROUPS
QUESTIONNAIRES	TRAINING	CONDUCTING EVIDENCE-BASED EVALUATION	

BENEFITS OF JOINING:

1

Gaining visibility and widening your networks with other institutions working in the same field across country and Europe;

2

Strengthening internal analysis of existing evaluatory frameworks;

3

Opportunity to express and discuss the needs, gaps and demands in evaluation;

4

Take part in the design, development, testing and validation of the evidence-based evaluation tool that the project will build, and you will have the opportunity to use in practice;

5

Opportunity to take part in capacity building activities (trainings, workshops, evaluation and strengthening skills on how to properly design, plan, implement and evaluate PVE/CVE and De-radicalisation initiatives as well as how to improve their effectiveness;

6

Sharing good practices, engaging in the real-world to tackle specific problems in tackling radicalisation;

7

Utilising the final results of the project in everyday work.
